Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

With respect to claim 19, applicant contends that there is no recognition that annealing creates a clean glass syringe barrel in the applied references, therefore requiring sterilization.

With respect to claim 33 and 37, applicant contends that air cleaning is an affirmative step of cleaning the contaminates off the syringe barrel such as air-washing known in the art (US 5,597,530).

The examiners do not agree but will consider applicant's remark.
